

# SECURITY & FREEDOM PRIVACY

DEDICATED SEMESTER

2016

F O N T B O N N E U N I V E R S I T Y

One of the most vexing questions of the 21<sup>st</sup> century has been how to balance increasing needs for security with the expectation that, in the United States, we live in an open, free and inclusive society. As we attempt to reconcile these issues, we must face important questions about what freedom and security mean and how much of our privacy we are willing to sacrifice for each.
