Holy Father Sends Message to Fontbonne

By Monica Liston

Hail, Virgin, Pure and Mild!

This great feast of ours, now so little in character with the rule of war, was many years ago placed under the universal patronage of Our Blessed Mother. The Mother of God is now known under many titles, lovely and respectfully throned, but there is none as fitting to the Maiden pure and mild who so humbly accepted the angel’s announcement with the words, “Be it done according to thy word,” than the beautiful and entirely unique title of The Immaculate Conception. Surely it is pleasing to Our Lady to be honored by a name that can be given to no other. Surely the most blissful of all God’s creatures smiles upon a nation which has come to accept it as her own and to ask her assistance in the hour of her death.

What’s the Matter with Women?

The meeting this month of the Missouri Academy of Science brings to our attention a field that has recently opened for women. “Women in science” usually means a riveted-looking woman standing in a long dress and holding a beaker, or a woman working at her desk in a laboratory. But of course, this particular problem may concern a small number of women, but the big class of which it is a detail is important. The above facts form but one point of the problem, and many others must be considered before a satisfactory conclusion can be reached.

Love is What the World Needs

Education is one of the common bonds of civilized peoples everywhere. It makes for understanding of ourselves and our fellowmen. It is the basis for tolerance, that much needed virtue in the world today.

The week of April 15 was Pan-American Week. Too many people forget that when thinking of our good neighbors to the south, we think of them only as gay, flower-covered, cow-tiptoeing, prototype of our present trend in music and radio entertainment. Of course, this particular problem may concern a small number of women, but the big class of which it is a detail is important. The above facts form but one point of the problem, and many others must be considered before a satisfactory conclusion can be reached.

We Americans have much to love, praise, and be thankful for in our glorious nation. No doubt we are the envy of many nations. But can we sit back comfortably, say self-sufficiently, and say we have nothing to learn? And, if so, why does it matter to us?
The Show Is Over But the Memory Lingers On

GOOD NEIGHBORS

At the conclusion of the formal part of the program, an informal dessert was held on the campus of the University of California for faculty members of the institutions which the audience was visiting. Among those who attended were: Dr. William L. Williams, President of Pomona College; and Mr. and Mrs. William H. Bird, President of the University of California.

MAY CROWNING USHERS

The following people have been named to usher in the May Crowning Ushers: Mr. and Mrs. William Scott; Mr. and Mrs. Harry Stimson; Mr. and Mrs. John W. Burt; Mr. and Mrs. Henry G. Davis; Mr. and Mrs. Edward A. Stimson; Mr. and Mrs. John W. Burt; and Mr. and Mrs. Henry G. Davis.

**Rosaline Had a Dream About You-All Clubs**

By Rosaline Solome

When I was assigned the task of writing this, I was first uncertain if I should accept the commission. I was scared of what might happen. But then I realized that I had to do it. And so, I set off on my journey.

**They Explained To Scientists**

**Six Smart Little Girls Are Wearing D.E.S. and K.G.P.**

The members of the faculty have selected Gloria P broadband, Betty Lewis, and Patricia Naughton for membership in the Kappa Gamma Pi. They were chosen by a secret ballot and are expected to be outstanding students.

**Faculty Tries Elude Reporters**

Faculty tries to keep plans hidden to prevent any possible trouble.

**World Peace Is the Theme**

The theme of the meeting was peace. The President of the Club, Mary Brown, spoke about the importance of peace.

**They are in the Library**

Gloria Johnson, the new President, was speaking to the members of the club. She discussed the importance of peace and how it can be achieved.

**Three Students Represented by Museum of Science**

The Museum of Science is representing three students: John Johnson, William Smith, and Jane Brown.

**The Cards and Us**

The cards and us are very important. They help us to stay connected.

**They Jousted and Jogged Their Way Through Eleventh Show**

The students jousted and jogged their way through the show. It was a great day for everyone.
