Why Pay for the Font?

It has been proposed today that the students pay 25 cents per copy for The Font for the remaining five issues. This is not an unreasonable request as shall be pointed out.

For a number of years, students have been paying an activity fee of $5.00 per year. Out of each student’s fee is taken back which is given to the paper.

While we ask your printing expenses have been raised 50%, in view of the fact that expenses have been raised and the income for The Font has remained the same, it is not difficult to see the money in the publication Treasury is not sufficient to pay for the cost of production.

Instead of increasing the printing fee 50%, I hope that the students will be paid 25 cents per copy. This will just about meet the production cost.

This plan has been approved by the editor and is now put before the student body. I hope you will handle the problem of the question, “Do you want a better Font?”
