Cecile Genhart
In Recital Here
Tonight at 8 p.m.

Archived and approved for entry to St. Louis. Miss Cecile Genhart will again thrilled the audience Feb. 18 at 8 p.m. in the Fontbonne auditorium, in a recital sponsored by the student body organization. Her programs will again feature Bach, Beethoven, Chopin, et al., and Cecile's genius is the ability to reach the listener to the work of others in his own spirit of creative understanding of the composer.

Recital in Switzerland, where Cecile received her musical training at the Zurich Conservatory, was featured in various recitals during 1953. Cecile Genhart made a tour recital of their American debut a few days after which she accepted the position of music director at the Beetman School of Music, and is due in New York soon to accept a position at the Juilliard School of Music.

Mother Berenice Presents Class Keys to Seniors at Assembly
The first official step toward graduation was taken Feb. 7, when the seniors of the Class of 1958 received their Class Keys at an Assembly in the chapel, the Class Keys being awarded at the conclusion of the Mass. Each member of the class received a key which he will retain until the completion of his college education.

The ceremony took place in the chapel and was conducted by the Rev. Alphonse P. Mauzy, O.F.M., president of the university. The keys were presented to the seniors by Father Mauzy, who explained their significance.

Science Department
 Holds Open House

The Science Department of the university will hold an open house in the Chemistry Laboratory this Saturday. The public is invited to attend the open house, which will be held from 2 to 4 p.m. in the Chemistry Laboratory. The department will be open to the public, and faculty members and students will be on hand to answer questions and give demonstrations. Visitors will be welcome to tour the laboratory and see the equipment used in science classes.

School Planned in '17
By Superior-General; Classes Started in '23

Fontbonne plans a school for the year of its fifteenth jubilee for the first time in its history. The school will be located in the new building on the campus. The first classes will be held in September and will be open to women in all fields of study.

Curricula Undergoes Changes Since '93

Although Pomfret's curricula has changed in some ways since 1993, in a college such as Pomfret, the number of changes is less than one might expect. Here are some of the changes that have taken place since 1993:

- The number of students has increased by over 100%.
- The number of courses offered has increased by over 50%.
- The number of faculty has increased by over 25%.
- The number of extracurricular activities has increased by over 100%.

Despite these changes, the overall culture and mission of Pomfret remain the same. Pomfret continues to be a school that values academic excellence, athletics, and community service.

Rowan Years

In the beginning of her high school years, a great improvement in Rowan's vocational education was the offering of a vocational education diploma. Science has been in the forefront of school programs. This is the first time since 1993 that any vocational education was offered.

Mr. Joseph Alphonse, now the head of the science department, said, "Science has been in the forefront of school programs. This is the first time since 1993 that any vocational education was offered."

Saint John's

"The Saint John's Hospital was opened in 1993. It was the first hospital in the region to offer 24-hour emergency care." - Mr. Joseph Alphonse

Font Contest Begins Feb. 17

"If you've ever done a field project, you know that it's hard to get a field project approved. That's why we've decided to hold a Font Contest." - Mr. Joseph Alphonse

Dean Announces Honor Students

"Mr. Joseph Alphonse has announced the Honor students for the first quarter. The following students have been selected:

- Mr. Joseph Alphonse
- Ms. Mary Smith
- Mr. John Brown
- Ms. Jane Doe
- Mr. Robert Lee
- Ms. Emily Davis
- Mr. James Johnson
- Ms. Sarah Cooper"

Student Handbook Being Revised

"Work has begun on the revision of the student handbook. The new handbook will be distributed to students in the first week of March." - Mr. Joseph Alphonse

Survey Shows That Font Changes Everything But Spelling Of Name

"A survey of 200 students found that most students prefer the new font. The survey also found that the new font is easier to read and more visually appealing." - Mr. Joseph Alphonse

THE FONT

Fontbonne on Parade

Notable Events

Fontbonne grew in size and population, going from 16 to 374. Twenty-five years later, it was a magnificently-equipped school with 150 classrooms and many other facilities. The reputation of the school continued to grow, and the Fontbonne community became well-known for its academic excellence and extracurricular activities. The school was involved in a number of charitable causes and was a leader in providing opportunities for students from diverse backgrounds.

The Fontbonne community believed in the importance of education and the value of higher learning. Fontbonne provided a rigorous academic program that prepared students for success in college and beyond. The school's focus on developing well-rounded individuals who were prepared to make a positive impact on the world.

Fontbonne was also known for its extracurricular activities, including sports, music, theater, and art. The school had a strong tradition of academic excellence, and its graduates went on to attend many of the top universities in the country.

Students at Fontbonne were proud of their school and its traditions, and they worked hard to maintain its reputation as a leading educational institution. Fontbonne had a strong sense of community and a commitment to providing a supportive and nurturing environment for all its students.

Fontbonne rejected the idea of the "men's club" and, instead, embraced the concept of a "community of scholars." The school believed that education was not just about acquiring knowledge, but also about fostering critical thinking and personal growth. Fontbonne was committed to providing a challenging and stimulating environment for all its students, regardless of their background or abilities.

Fontbonne was a school of excellence, and its graduates went on to lead successful lives in a variety of fields. The school's legacy continued to inspire future generations, and Fontbonne remained a beacon of hope and opportunity for those who sought to make a difference in the world.

Fontbonne was a beacon of hope and opportunity for those who sought to make a difference in the world. Its legacy continued to inspire future generations, and the school remained a symbol of excellence and commitment to education.
The Toothless Tiger

...to meet and enforce laws is matters of national welfare to cooperate in the work of self-government...

Their rule Article XI of the Student Manual is entitled "The Student Council," stating the object of the association. The Student Council should have power and authority due it as the executive body of the organization. "Exhaust," "enforce," are strong words. Unfortunately, they are not followed by action. The Student Council is made up of intelligent, alert, competent young women, capable of making and enforcing the student regulations. Being a member of the Council should mean more to us than being a label to pomade and don slacks on a sleepy Sunday morning. It should be considered a full-time, responsible job that can only be fulfilled when the executive body is given an opportunity to take an active governmental role.

The Amethyst will be congratulated for turning College Day over to the campus government. It is a move in the right direction.

The 25

Twenty-five years ago, the Sisters of St. Joseph founded this educational institution which is today known as Fontbonne College. The sisters have always been the leaders in the field of education. They have always been in the forefront of the educational field. They have always been the leaders in the educational field. They have always been the leaders in the educational field.

Visit the Post-Atomic Fontbonne

View of 2048 Reveals Many Campus Changes

by Joan Dettenhagen

The post-atomic age is upon us, as evidence by the recent dedication ceremony of the new Fontbonne building. The campus is undergoing a massive transformation, with buildings being redesigned and updated to accommodate the needs of the future.

Lectures taking of life at Fontbonne a hundred years ago are most interesting. A new aesthetic has taken hold, and the traditional blackboard has been replaced with interactive digital displays.

The old Science Building is being transformed into a modern, state-of-the-art facility. A Cátedra de Astrofísica has been introduced, and students are divided into small groups for interactive learning.

The Old Science Building is also being home to the new Science Museum, which features interactive exhibits on everything from quantum mechanics to artificial intelligence.

One student, named Peter, was so excited about the new museum that he spent the entire weekend there, exploring every exhibit. He said, "I've always been interested in science, and seeing all these things up close is just amazing!"

In conclusion, the future of education is bright at Fontbonne. The campus is on the cutting edge, and students are being prepared for the challenges of a rapidly changing world.

Late Plates

Local chef pulls out all the stops!

Good food is hard to come by these days, but at the local restaurant, "The Plate," the chef is making waves with his delicious creations.

The menu is constantly changing, with new dishes added every week. The chef is known for his innovative approach to cooking, and his dishes are a true reflection of his passion for food.

But the best part of dining at "The Plate" is the atmosphere. The restaurant is cozy and inviting, and the staff is always friendly and accommodating.

If you're looking for a great meal in a great atmosphere, "The Plate" is the place to go.

Shades of Mrs. Lambrou

The Lambrou family has been a fixture in the community for generations. Mrs. Lambrou, the matriarch, is known for her kind heart and her commitment to helping others.

Mrs. Lambrou's legacy continues today with her granddaughter, who is carrying on the family tradition of community service.

The granddaughter, a student at Fontbonne, is working with a local charity to provide meals for those in need.

"My grandmother always taught me the importance of giving back," she said. "And I want to continue her legacy by making a difference in the lives of others."

1948 Fashions Reflect the Spirit of the '20s; New Look Revives Styles on and off the Campus

Fashion Flash Back

The first fashion column to mirror the changing times, "Fashion Flash Back" provides a snapshot of what life was like in 1948. The column is written in a nostalgic tone, with a focus on the fashion styles of the time.

In 1948, women's fashion was all about curves and femininity. The "New Look" was introduced, which featured a fitted bodice and a flared skirt. The style was a departure from the long, flowing dresses of the 1930s and quickly became popular.

For men, the suit remained a staple, but with a modern twist. The "New Menswear" featured a shorter jacket and a straighter, narrower fit.

The column also highlights the return of the "flapper" look, with short dresses and loose-fitting coats.

"Fashion Flash Back" is a must-read for anyone interested in the history of fashion and the impact of the 1940s on our current styles.
Rev. Sheridan Conducts Annual Three-Day Retreat

The annual three-day retreat was conducted by Rev. Robert L. Sheridan ofimus. This was his third year as director of the retreat, held at Mt. St. Ignatius Loyola. Father Sheridan emphasized the desire that the retreat should be a real development of the personal retreat. He pointed out the importance of the retreat as a day of renewal in Christ and Mary.

A Catholic college student should strive for a deep understanding of Catholic principles. The retreat proved this, for the purpose of the retreat was to provide a day of information and development. The retreat proved to be a great success.

Practice Prayer

The practice of prayer was followed by the Spiritual Exercises of St. Ignatius Loyola. Father Sheridan urged that everyone should practice prayer as it would be a refreshing experience for the soul.

The Lieutenant Governor of the State of Michigan, Mr. John F. Kennedy, was present to address the retreat. He said that prayer was a way of life and should be practiced daily.

Twenty Girls Make Varsity

The varsity basketball team for 2068 has been chosen by Miss Gertrude, the principal.

“I was delighted finding the majority of the team, since there were only 12 girls that tried out and only 6 were needed. All made an excellent showing,” stated Miss Williams.

Forward are: Marjorie Hulken, H. Hayn, Mary Jane Kinnin, Pauline Wilkerson, Betty L. Lowry, Marilyn Miller, Betty Roe, Betty Bona, Shirley L. Forth, and Mary Margaret Cost. Guards: Thelma Kiskolopin, Jo Miller, Mary Lou Beedle, Florence Bowers, Mary Viele, Emily Fuller, E. Coleman, Margaret Reed, Maud Monroe, and Kathy Digors.

The varsity schedule begins in February.

Mar. 12: Maryville (At Fontbonne).

Mar. 20: Lindine (At Fontbonne).

Other girls in the team are: Pauline Himmel, Mary Margaret McPike, Miss Merlow, Miss Jones, and Virginia Othson. The team will try in the club finals before the games. Everyone is urged to come and support the team.

Leslie Speaks From the Bench

From my vantage point on the bench, the sport scene at Fontbonne seems to have begun with a fast break.

The ball started rolling at the top of the basketball court where the six-minute period of the game was announced. The most important feature on its schedule is the Fontbonne Academy basketball tournament, which is to be held at the Fontbonne Academy High School on March 20th.

Fontbonne is a member of the City Basketball League, which includes the Academy, the Hilltopper, the West High, and the Central High schools.

Font Bunny Comes to Fontbonne

As Mascot for Students’ Team

It was, indeed, a great pleasure to introduce the new student body mascot, Font Bunny, to the students and faculty of Fontbonne Academy.

Font Bunny, the beloved pet of Mr. and Mrs. Davis, was presented to the school as a mascot for the students’ team.

Font Bunny was introduced during the school assembly, and the students were thrilled with the new mascot.

LeClerc Wins in 18-17 Game With Varsity

In a STAFF WRITER

It was a beautiful day for a basketball game! If basketball games were like fashion rodeos, we might find some styles and patterns worthy of note.

The Fontbonne Varsity basketball team was in action last night, facing off against a tough opponent. The game was hard-fought, with both teams displaying great skill and determination.

The game was intense, with both teams playing well. The Fontbonne team, led by Captain LeClerc, managed to hold off the opposition and secure a narrow victory.

The Fontbonne team, led by Captain LeClerc, managed to hold off the opposition and secure a narrow victory.

In the end, LeClerc’s determination and leadership shone through, as the team secured their second victory of the season.

Club Donates Silver Trophy

Fontbonne’s newly-established Pep Club is giving a silver cup to the college in St. Louis, which was the greatest number of basketball games this season.

There was no league attached to this game, but a plan will be set in motion to record the scores and determine the winner.

The primary purpose of this cup is to encourage more school spirit and to give the students a goal to work towards.
The Font Travels
In All Directions

By PAT VAN LAY
The possibility of meeting a former Fonteian in any far reaches of the world is a thrill to any alumnus. The reunion of old classmates and the opportunity to see one another after a long absence is always enjoyable. The Fonteian Alumnus Association (F.A.A.) has taken this idea a step further by organizing a travel program called "The Font Travels." This program provides an opportunity for Fonteians to travel together and experience new places and cultures.

Campus Chatter and Clatter

It's been a long time between issues, and the campus has seen a lot of action and change. The new student center has been completed, providing a modern and comfortable space for students. The new athletic facilities have been added, giving students more opportunities to participate in sports. The new library has been opened, providing a state-of-the-art facility for research and study.

NSA Releases Travel Books

MADISON, Wis. (AP) -- NSA Releases Travel Books have been released, providing valuable information for travelers and tourists. These books cover a wide range of topics, from history to culture, and are written by experts in the field. They are available at bookstores and online.
