Footlights Club Selects Shakespeare's 'Twelfth Night' For Annual Offering

The Footlights Club has decided on Twelfth Night as its annual offering. Scheduled for the middle of the winter semester, this play is Shakespeare's most delightful mixture of farce and serious thought. Certainly, the high perusal of the play is due to a careful analysis of the author's motives, an understanding of the historical period of the play, and the interest of contemporary criticism.

The Footlights' production is due and that at this time been planned, but according to Miss Belle Biddle, mistress of the club, the following have been chosen: Miss Walter to play the role of Miss Biddie, Miss Ford to play the role of Miss Ford, Miss Crabbe, and Miss Mary to play the role of Miss Mary. The selection of these girls is due to their interest in the play and their ability to carry out the work assigned to them.

The play is one of Shakespeare's finest works, consisting of farce and serious thought. Certainly, the high perusal of the play is due to a careful analysis of the author's motives, an understanding of the historical period of the play, and the interest of contemporary criticism.

Magazine Fosters Christmas Spirit

The Catholic magazine wishes to offer the following suggestion to all American Catholic schools: "Let us not forget the true meaning of Christmas. The true meaning of Christmas is not the buying of presents, but the giving of love and joy. Let us remember the true meaning of Christmas and make our schools a true reflection of the Christmas spirit." The magazine suggests that schools should decorate their halls with Christmas decorations and have a Christmas pageant. The pageant should include songs and stories about the true meaning of Christmas. The magazine also suggests that schools should hold a Christmas party for the children of the school. The party should include games, singing, and storytelling. The magazine believes that this will help the children understand the true meaning of Christmas.

Often you have heard the old saying, "An apple a day keeps the doctor away." But what if you made a mistake and the doctor did not catch it? In such a case, the journalist would be the one to blame. The journalist would have to print the mistake in the newspaper so that everyone could see it. This would prevent the doctor from being blamed for the mistake. The journalist would then have to work hard to correct the mistake and make sure that it does not happen again in the future.
