Chemistry Gets $2,000 Grant

Sister Helen Joseph, Conyer, C.S.J., director of the chemistry department, has received a Frederick Griswold Graduate Grant for $2,000 for one year for original chemistry research with a 50-year-old compound.

The grant was awarded to Sister Helen Joseph, who has a doctor of philosophy degree in chemistry from Notre Dame on the basis of an outline submitted by her to the Frederick Griswold Graduate Grant Committee.

The project on which Sister Helen Joseph will work is entitled "Improved methods of studying the inorganic behavior of tritium." The project involves and interaction with another 50-year-old project.

The results of her study will be used to increase knowledge of the energy of the inorganic material in the project and should be published next year, she said.

In her research, Sister Helen Joseph will be assisted by Pauline Balit, a chemistry major. They will work in a new laboratory her chemistry research center located at the University.
