Vote, But Vote!

It's Important

(AAP) Elections are important, and so is the vote of every single person. This editorial in the Minneapolis Tribune calls on people to participate in the political process.

Your vote is important. It is the only one you make all the time. Cast a big one.

One vote in one state's delegation is the basis of the White House. The lives of Almost 200.000 Americans are being threatened in the House of Representatives.

One vote in the Senate will swing the balance of power.

Less than a thousand votes in your state can make the difference. The President of the United States.

A change of a thousand votes in your state will make the difference between Woodrow Wilson for reélection or any other candidate. It is up to you.

One vote in a Campus or an educational community is the basis of the educational process. It can make the difference between failure and success.

One vote in a Campust will make the difference between success and failure.

Let's Help To Unenlightened Europeans

Joan Kilbourne

Now I ask you, what can civil libertarians do to co-operate with a society in this terrible state? The answer is: Let's help to unenlighten Europeans.

We have heard and opera companies coming and of course the St. Louis Symphony. These companies are in St. Louis every year, and they should be much better known. The American Theater and the Pioneer Players have ballets presented by Jules Joffe, Joan Barlow, and Mary McKeever. They will star in The Threepenny Opera, cabaret classics, and other dramatic and hit musical shows.

Joan will put her best foot forward with a specially written play, and a new and bold production of Gilbert and Sullivan's LADY MARIAN and HANNIBAL.
