Four Seniors Tell Plans

With graduation very near, the seniors are beginning to plan what they will do after they leave Frant- heme's honned halls. One of the first interviewed was John Kaster who plans to teach in a St. Louis County high school. John, who is a physics education major, is a member of this year's Varsity Basketball team.

Carol Ann Hendrix, a deletion major, will take her required inter- eteries to New York City. After that shi will come back home to St. Louis, but says Carol, "If the prospects aren't too good, I'm thinking back to the big city."

Majoring in elementary education, Carol Shaughnessy has put in her application to teach kindergarten. She will teach in her home town, Kansas City, Missouri.

The last girl to be interviewed was Regina Malcom. "I'm off to New York for a tentative change, but she just can't seem to make up her mind about the best place to stay. She may very well come back to St. Louis, but for now Florida, as she is continu- ing her education at Ohio State University, or move to Europe and teach for the next couple of years.

Ireland Are Not Vanishing

The Irish "are not vanishing — no matter what the esteemed say," declares John D. Smith. Irish. A writer in an article written for the March issue of The Sigl, called "A Dublin Family at Work and Play."

"The vanishing Irish have been much in the news recently, and it is true that the town was brought back by John Fairman. Fairman in a position, but it is also the story of a problem that will be solved more reluctantly than we are led to believe in our society into better trim and take up the road again until that task shall unfold."

"We are an essential people," he continues, "but a young state.

The date has been set for May 12.

The members of the I.R.C. will also attend a workshop at Maryville College on March 29.
eastern rites
Of thousands of Catholic colleges in the world, about nine million belong to the Eastern Church. Obviously, then, all Catholics, no matter to what rite they belong, believe in the same basic principles and follow the same teachings. The rite to which a man belongs is the same as the rite he follows. The Eastern Church has a different way of life, with different customs and practices. But the core beliefs remain the same. 

Reason
The reason for the origin of the Eastern Church is not difficult to explain. After the death of the Holy Church in Antioch, the bishops of the Eastern Church separated from the Western Church and established their own church. They maintained their independence and developed their own traditions and customs. This separation was caused by differences in theology, liturgy, and ecclesiastical organization. The Eastern Church developed its own traditions and practices, which have remained distinct from those of the Western Church. The Eastern Church has a different way of life, with different customs and practices. But the core beliefs remain the same. 

Which Are More Important, Studies Or Parties? asks Fontbonne Reporter Of Faculty
Are parties and clubs becoming more important in a student's life than passing examinations or philosophy? More students are now planning for a future than planning for a career. Students today are more interested in making friends than in preparing for examinations. There has been much more discussion among students concerning interesting topics and experiences than in the past. The curriculum is not the only thing that must be emphasized. Of course the student must have enough responsibility to see that the curriculum gets enough of his time.

"No, I don't think that there is too much antimoralization today," was the reply given by Mr. Frank Keene. "After all, part of college life is learning to mix with people. The only real difficulty is that it takes some students until one or two years to know what intellectualism is all about!"

Sister Genevieve believes that although examinations and future plans come in far more than college life today, more students are interested in their studies and the school, rather than in partying.

Sister Mary Huguenin, Student Affairs Director, said, "I think that the present trend is toward a more balanced and intellectual curriculum."

Dr. Isabellos Wireless believes that there is more interest shown in extra-curricular activities than in school work. She asked, "How often is class work centered outside of the classroom unless it is about sports? Sports would be more meaningful to the students if they did talk about them after ward. But, I don't think that the clubs and organizations on campus receive too much of the spotlight!"

Although faculty members who were questioned before the extra-curricular activities have their part to play in college life, all agreed that intellectualism comes first.

congratulations
On Tuesday, March 3, the University of Virginia defeated Bradley University in a Missouri Valley Conference basketball game. This defeat dropped Bradley to second place and assured the St. Louis University Billikens of the conference championship. The following evening the Billikens ended a brilliant season by downing the tough Oklahoma Aces for the second time this year.

We at Fontbonne share the joy of this championship. Many of us were frequent spectators at the Billikens home games. At times, we were dismayed at the outcome, but more often we thrilled to exciting victories. Socially, a sense of classness was built up between the students of all the college campuses as they rooted for their favorites.

The Billikens journeyed to Dallas to play the first round of the championship. We are sorry to lose them, but we wish them well. We hope to see them again sometime on a wonderful occasion and a fine team earned championship.
