Represent College At NFCCS Meet

On the weekend of April 12, Sister Mary Teresita and twenty students attended the NFCCS Spring Regional Conference at St. Mary's College in Xavier, Kansas. Ninety-three students from 11 colleges in Kansas, Missouri, and Nebraska were represented.

Theme of the Conference was "Knowledge and Power for God." Reverend Thomas Collins, OMI, offered the keynote address and told the students that the Church is the Bride of Christ. "The Church, then, is the body of Christ. The Church is the world. Our problem is this world. How do we love the world with all our hearts?" he asked.

Readers and Others Ready Soon

Sister Mary Teresita said that the first time she met President Gerald Ford, she felt "overwhelmed." The President, she said, "is an example of how a Catholic can be a good man." She also noted that the President has a "wonderful family." The President's mother, she said, is "a wonderful woman." The President's sister, she added, is "a wonderful sister." The President's children, she said, are "wonderful children."

Modern Dance Program to Be Presented on Campus

The Modern Dance Workshop, sponsored by the College Union and the office of the President of the College, will present a dance program in May at 4-40. The program will be held outdoors as the sun sets in front of Memorial Hall. Miss Eileen Sradow is the director, and Miss Jane Kieser is the assistant director. The program will feature the work of students and faculty members.

thank you and well done

So often, the student council member thinks that the only type of opinion ever offered on campus by the student is the student's is both the most

One area that we are grateful for in the student is that the student doesn't always have to be a Council member. This council member does not have to be a Council member. This does not mean that the Council has done work that is not appreciated by the student, but it does mean that there is a lack of appreciation by the student, but it does mean that there is a lack of appreciation by the student.

We believe that a big "Thank You!" is in order to the Student Council of 1967. They have initiated a great many changes on the campus this year. We believe that these changes have been greatly appreciated and have definitely benefitted our student population.

The biggest changes were in the student council itself. Many changes, not the least of which is the voting system, were simplified. A more effective and better system was evolved giving merit for work done and preventing the selecting of a certain "Favorite." A student council that works hard on class projects.

For these things we would like to "Thank You!" to the Student Council of 1967. Congratulations to Mary Lou Goff, President, and any other student council members, we say "Well Done!"

Magazine Features Unique Vacation Plan

A young St. Louis advertising man has made a tour of the United States and Canada, and he has been through a few short cuts. He has taken time to find places where, for your family, fun can be had by all.

Camping equipment is an investment that pays off all summer long. But, the unit of the camp has to be considered before you can begin. A tent and a sleeping bag, for instance, cost $1 to $5, and a good 15-gallon water bottle will cost you $2.50.

You may not have space, but weight if you stick to small sizes, too. You may have to consider your beds, dehydrated meals, and other factors.

Books Will Like

What would happen today if the first book was not a manual for the printing press but a manual for the writing of a book? What would happen to the printed page in its old sentimental form? What would happen to the new, new, on the stage in the pantomime, in the plays, in the films, in the advertisements, in the books, in the newspapers? What would happen to the new, new, on the stage in the pantomime, in the plays, in the films, in the advertisements, in the books, in the newspapers?

The story of Missourian, Pigpen, of course, is the story of the printing press. Pigpen is the story of the printing press. Pigpen is the story of the printing press.
